ORCID ID: 0000-0003-2724-231X

Laboratory Technician in Normon

**Sara López Sanz** received her PhD in Chemistry from the University of Castilla-La Mancha (UCLM) in May 2019. She obtained the mention as International PhD for a research stay at the Technical University of Denmark (DTU).

She was a Project Manager in the University of Alcalá. She worked in the management of the project “Estrategias integradas para la mejora de la calidad, la seguridad y funcionalidad de los alimentos: hacia una alimentación saludable (AVANSECAL-II-CM)”.

She is currently a Laboratory Technician at the pharmaceutical company Normon. She works in the analytical methods and new developments section that belongs to the analytical technical service department. Her field of interest is the development and the validation of new analytical methods based on high performance liquid chromatography and ultra-performance liquid chromatography to identify and quantify different active principles and their impurities in raw materials and medicines.

She has published eight scientific papers, has worked in eleven research projects and has participated with seven posters and ten oral communications in national and international conferences.
