

Yassine BENMASSAOUD

PhD student at the University of Castilla-La Mancha

Yassine BENMASSAOUD is a PhD student at the department of Analytical Chemistry and Food Technology, working at the Regional Institute of Applied Chemistry Research (*IRICA*) at UCLM since December 2016. He received his Diploma of state engineer in process, energy and environmental sciences from the National School of Applied Sciences (ENSA), Agadir, Morocco in 2016. His thesis work is focused on the development of new analytical methods using nanomaterial in the environmental and food field.
